When you run with Mack, it’s always uptime. Because only Mack offers Mack Connect to keep your team on the road and in the black. Mack Connect is the uptime and productivity solution to help you build a modern trucking business. Using predictive analytics and connective technologies, Mack Connect turns data produced by the truck, the driver and the service process into insights and actions that help you perform at your best. So you’re ready to roll, every time.

MackTrucks.com/MackConnect

BORN READY.
Maximize uptime with intelligent maintenance systems and time-saving repair processes.

OVER THE AIR (OTA) SOFTWARE & PARAMETER UPDATES
Wirelessly updates software without disrupting your schedules, while increasing operational efficiency and uptime. Requires Mack® GuardDog® Connect.

GUARDDOG CONNECT
GuardDog Connect automatically monitors your truck’s performance and quickly alerts OneCall® of any maintenance or repair needs. OneCall’s 24/7 support and roadside assistance leverages Mack® ASIST to give drivers, dealers and Uptime Center staff access to all of the repair information they need—all while you’re still on the road.

CERTIFIED UPTIME DEALERS
Dealers identify quick fixes and put them in the fast lane for completion, while giving larger repairs the attention they need and putting you back on the road faster.

PREVENTIVE MAINTENANCE
Keeps your trucks in top shape by planning a service schedule that matches the usage and miles of your vehicle, so we can repair or replace components before it impacts your business.

GUARDED CONNECT
GuardDog Connect automatically monitors your truck’s performance and quickly alerts OneCall® of any maintenance or repair needs. OneCall’s 24/7 support and roadside assistance leverages Mack® ASIST to give drivers, dealers and Uptime Center staff access to all of the repair information they need—all while you’re still on the road.

Drive profitability and gain insights at every turn with Mack’s open platform and fleet management systems.

TELOGIS®
Advanced fleet management and compliance tools that integrate directly with GuardDog® Connect or your own smartphone, tablet or other connected device.

OMNITRACS
Real-time data on your vehicles’ locations and how they’re being driven so you can spot trends, reduce costs and manage drivers. No additional hardware needed.

WHEREISMYCONCRETE
Real-time data for dispatch, transparency for customers, and critical analytics to improve business operations.

GEOTAB®
Business intelligence and benchmarking data for older fleets to improve productivity, reduce fuel consumption, enhance driver safety and improve compliance.
Get the most out of your trucks and your drivers with built-in fuel management and driver assist technologies.

**INFORMATION AND ENTERTAINMENT**
Bluetooth, satellite radio, cell phone integration and more to make life on the road as enjoyable as possible.

**MACK PREDICTIVE CRUISE**
Proprietary Mack technology that stores hilly terrain in GPS data to optimize engine speed and fuel efficiency on saved routes.

**BENDIX® WINGMAN® FUSION™**
Driver assist and safety technology combining radar, camera, brakes and the SafetyDirect® web portal from the leader in collision mitigation.

**ROLL STABILITY**
The Bendix® ESP® full-stability system helps drivers mitigate rollovers and loss-of-control in situations on wet and dry roadways through advanced sensors and throttle and braking interventions.

**COLLISION AVOIDANCE**
Automatically alerts the driver and, if needed, applies the foundation brakes to mitigate or prevent a potential collision with a forward moving vehicle or stationary object.
